

CODTECH IT SOLUTIONS PVT. LTD.

MERN Stack Web Development Internship — Project Submission

Candidate Name:	Yug Thakral
Selected For:	Mern Stack Web Development
Organization:	Codtech IT Solutions Private Limited
Duration:	6 Weeks
Internship Period:	03 June 2026 - 15 July 2026
Intern ID:	CITS3144

As part of this internship, the following screenshots document the MERN stack web application — **"Shop It"**, a full-stack e-commerce storefront — built and completed during the internship period.

1. Homepage — Hero Banner & Product Search

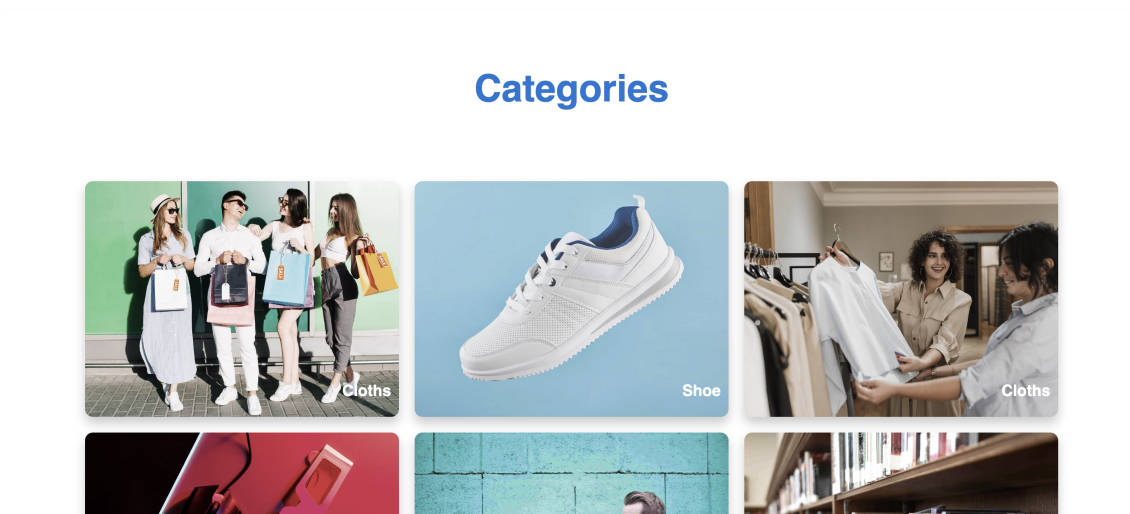

localhost:3001/products/categories

Categories

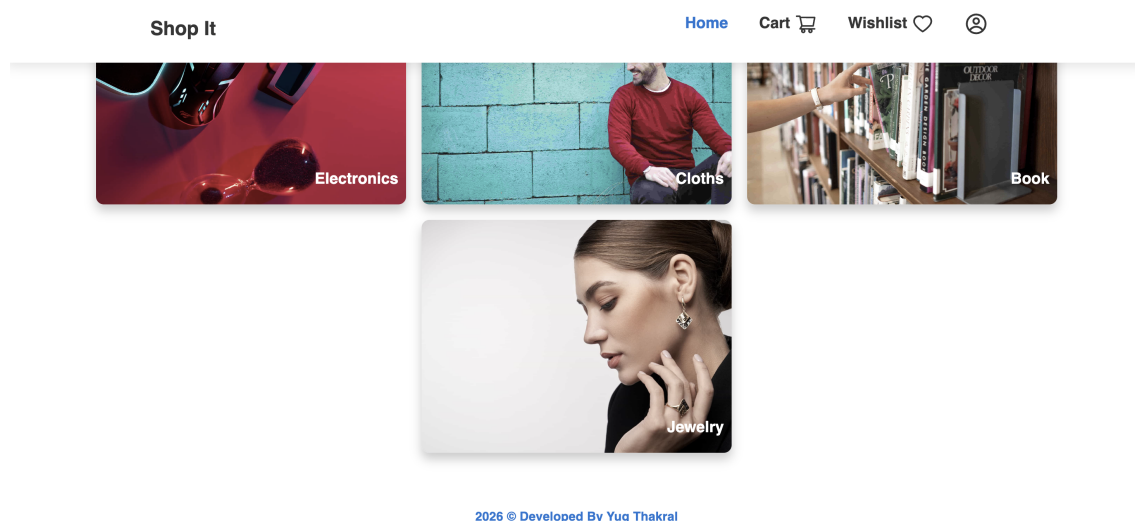

Screenshot showing the "Shop It" homepage, featuring a rotating promotional banner, top navigation (Home, Cart, Wishlist, Account), and a product search bar leading into the Categories section.

2. Categories — Product Browsing

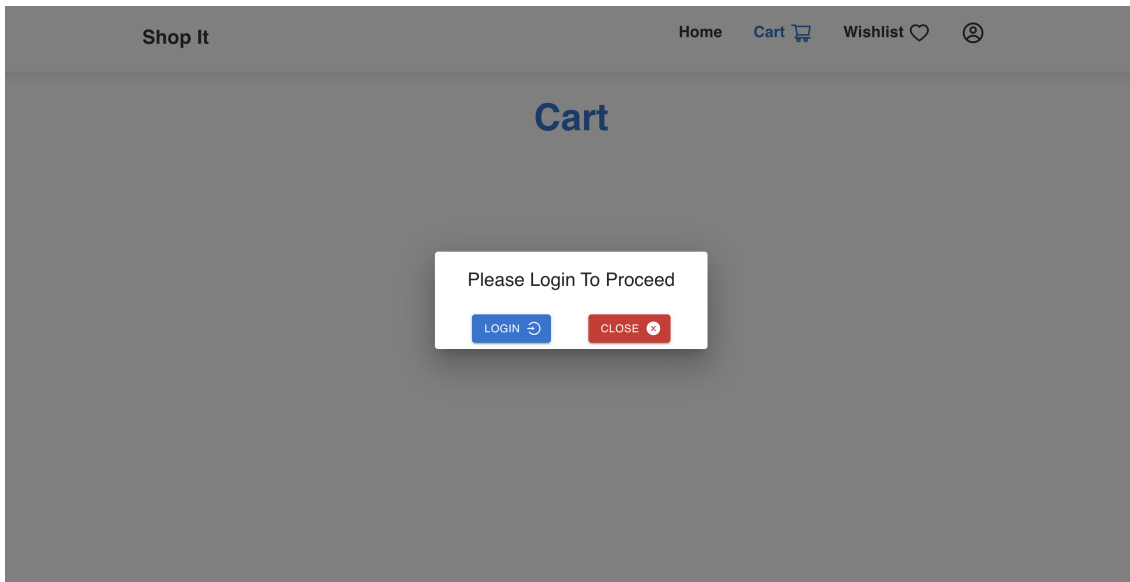

Screenshot of the Categories section, where customers can browse products by type — including Clothes, Shoes, and Clothing collections — through clickable category cards.

3. Categories — Full Catalog & Footer

Screenshot showing the remaining product categories (Electronics, Clothes, Books, and Jewelry) along with the site footer crediting the developer.

4. Cart — Authentication Guard

Screenshot of the Cart page displaying a "Please Login To Proceed" prompt, demonstrating the application's protected-route behavior for unauthenticated users.
